

BATTERIES AND ACCUMULATORS ASSEMBLY SOLUTIONS

ASSEMBLY ADHESIVE SOLUTIONS FOR BATTERIES AND ACCUMULATORS

Sika technologies are suitable to bond the most common substrates used for industrial applications. In battery production, the ABS lid needs to be leak-proof bonded and sealed on the ABS housing with short cycle times and high production output.

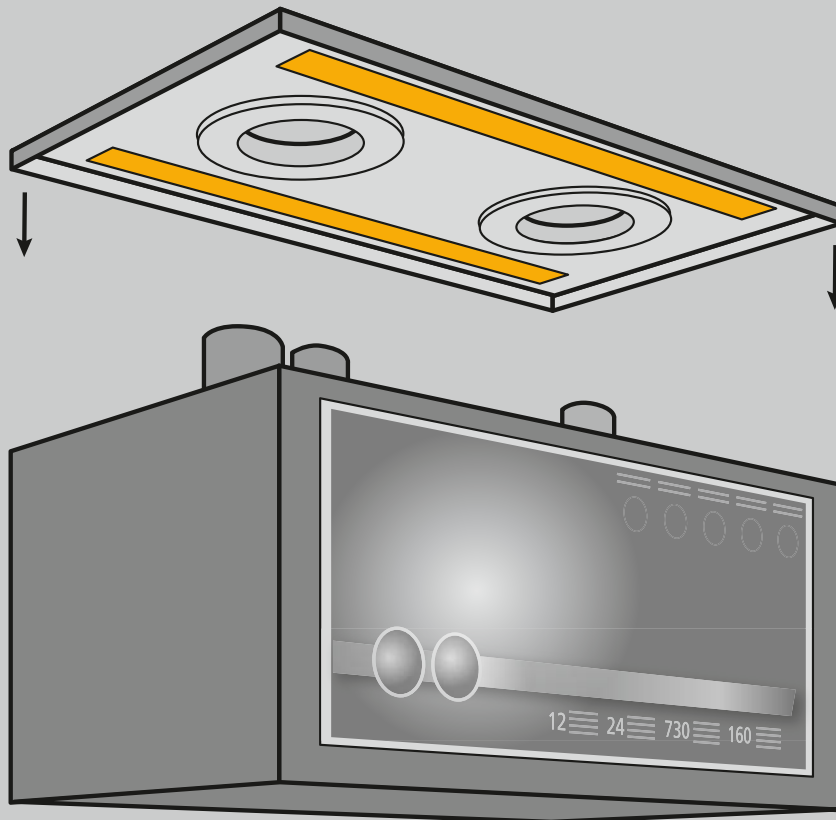

SikaMelt®-9670, a reactive polyurethane hot melt, fully meets the customer requirements, providing a fast handling time which allows an increase in the number of components produced per day.

ADVANTAGES

- Possibility to fully automate the assembly process with short cycle times
- Reliable bonding solution
- Higher daily productivity
- Reduced manpower
- Cost saving per unit

PRODUCT FEATURES

- High green strength
- Suitable for a wide range of substrates
- Optimized both for large and small scale industrial applications

Top lid bonded and sealed with **SikaMelt®-9670**.
